

**INFIWAY CHEM SOLUTIONS PVT. LTD.**

**NEW DELHI, INDIA**

### **INFICRYL-5650**

**INFICRYL-5650** is a fine particle size sty-Acrylic copolymer emulsion. Its moderate film hardness, allows binder plasticity to withstand medium to high PVC. It also exhibits superior alkali-water and excellent uv resistance.

**INFICRYL-5650** is specifically developed for high binding power, adhesion, film toughness and better colour developments Coatings made using **INFICRYL-5650**, exhibit low thickener demand and excellent wet scrub

#### **SPECIFICATIONS:**

Appearance	:	Bluish white emulsion
NVM % (120° C, 1 Hr.)	:	50 $\pm$ 1%
Viscosity @ 30° C (RVT5/20)	:	45 - 60 poise
pH	:	7 - 9

#### **OTHER PROPERTIES:**

Polymer Type	:	Styrene - Acrylic
Film	:	Clear and flexible
Sp.Gr.	:	1.04 $\pm$ 0.02
MFFT	:	18°C $\pm$ 1°C

#### **STORAGE LIFE :**

Six months (max.) in sealed container, away from direct heat & sunlight.

#### **STORAGE AND HANDLING :**

To be stored in plastic containers or corrosion resistant tanks in shaded areas away from direct heat and sun.
